The 2023 Roadmap

The 2023 Roadmap

Quick Creator

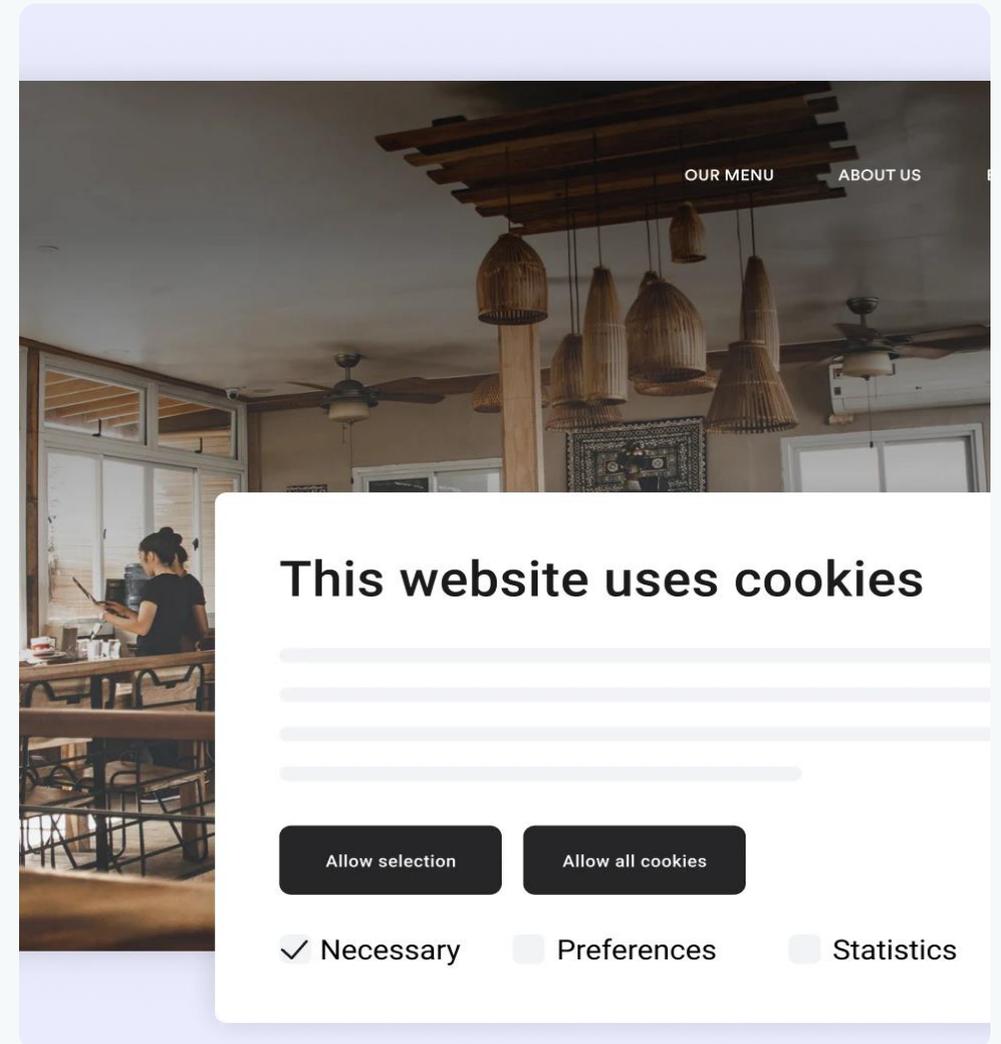

- Quick Creator & AI
- External login
- Designers can leave the set-up to a non-tech person, for example a sales manager
- The web designer can focus on the design process
- Autofill global data
- A more automated flow for sending the site to the customer

The 2023 Roadmap

Cookie Consent

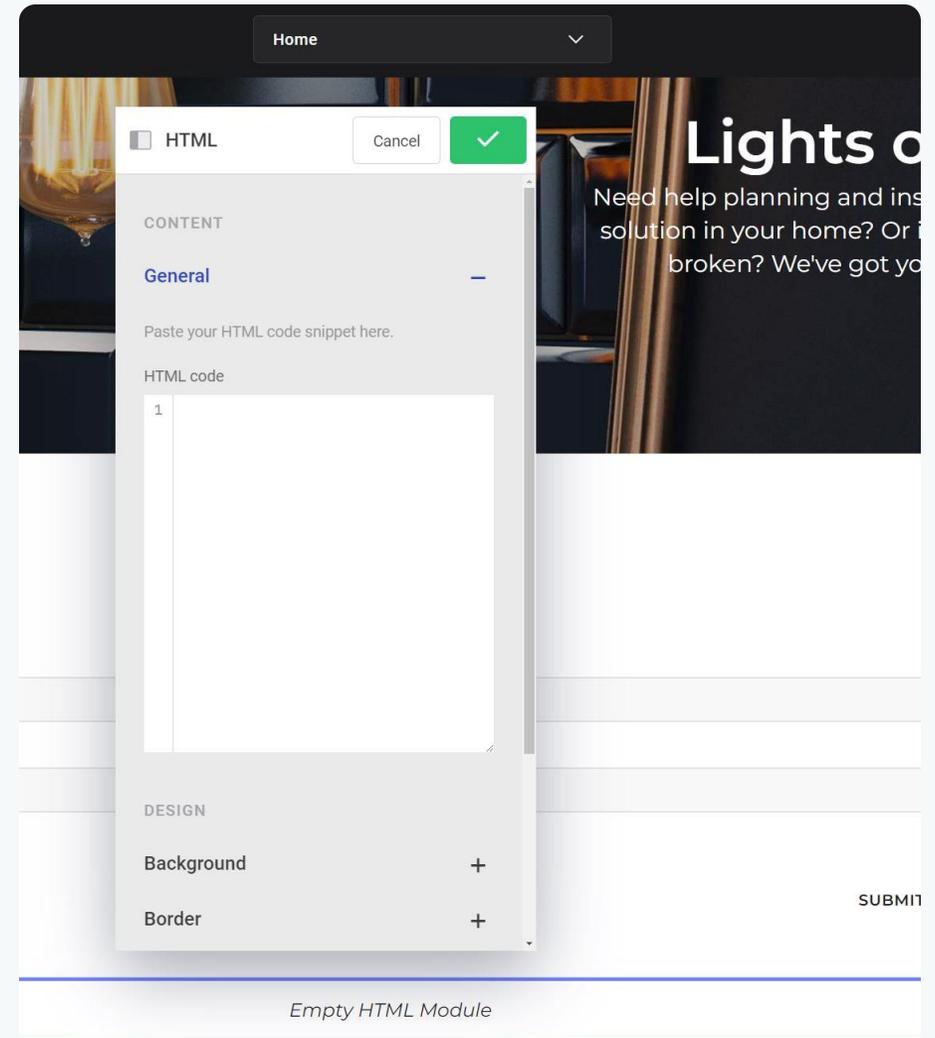

- New widget planned that allows you to retract consent and read more
- This widget removes the necessity of extra pages for privacy
- Similar to the declaration module, but without requiring extra pages
- Customisation options, for example, translations for banners
- New styles

The 2023 Roadmap

Dynamic HTML Modules

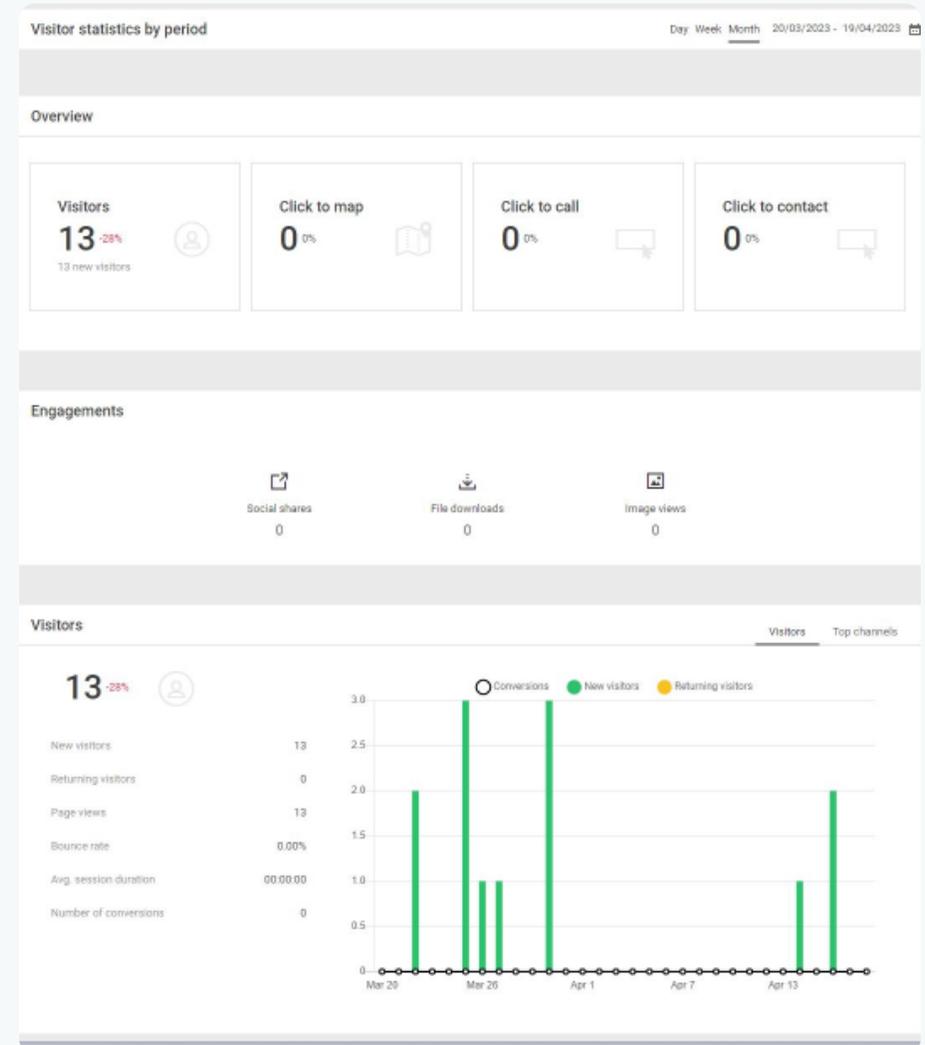

- Will require API work
- Could be used to build your own widgets
- Could be used to update, for example, a logo across all sites

The 2023 Roadmap

In-house analytics

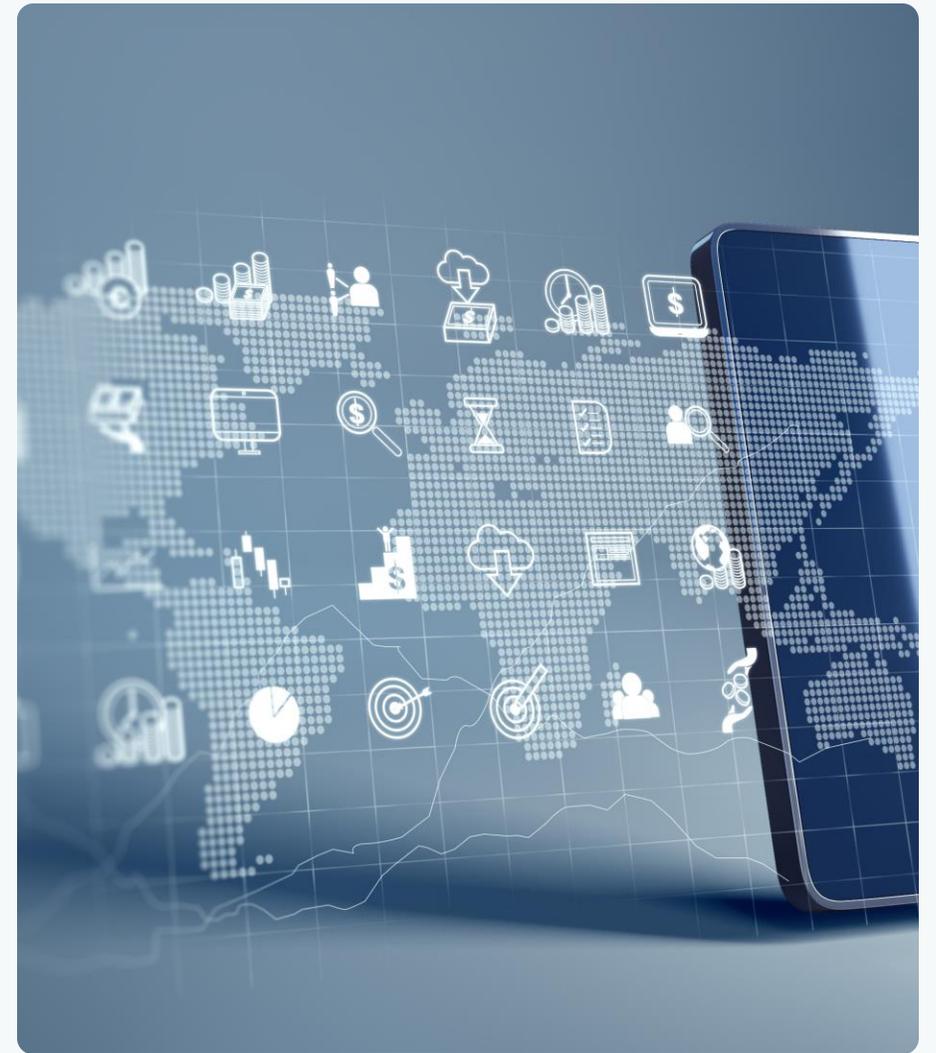

- In house managed analytics tool
- Will use our own system for the data visible on the dashboard

The 2023 Roadmap

Expanded Icon Library

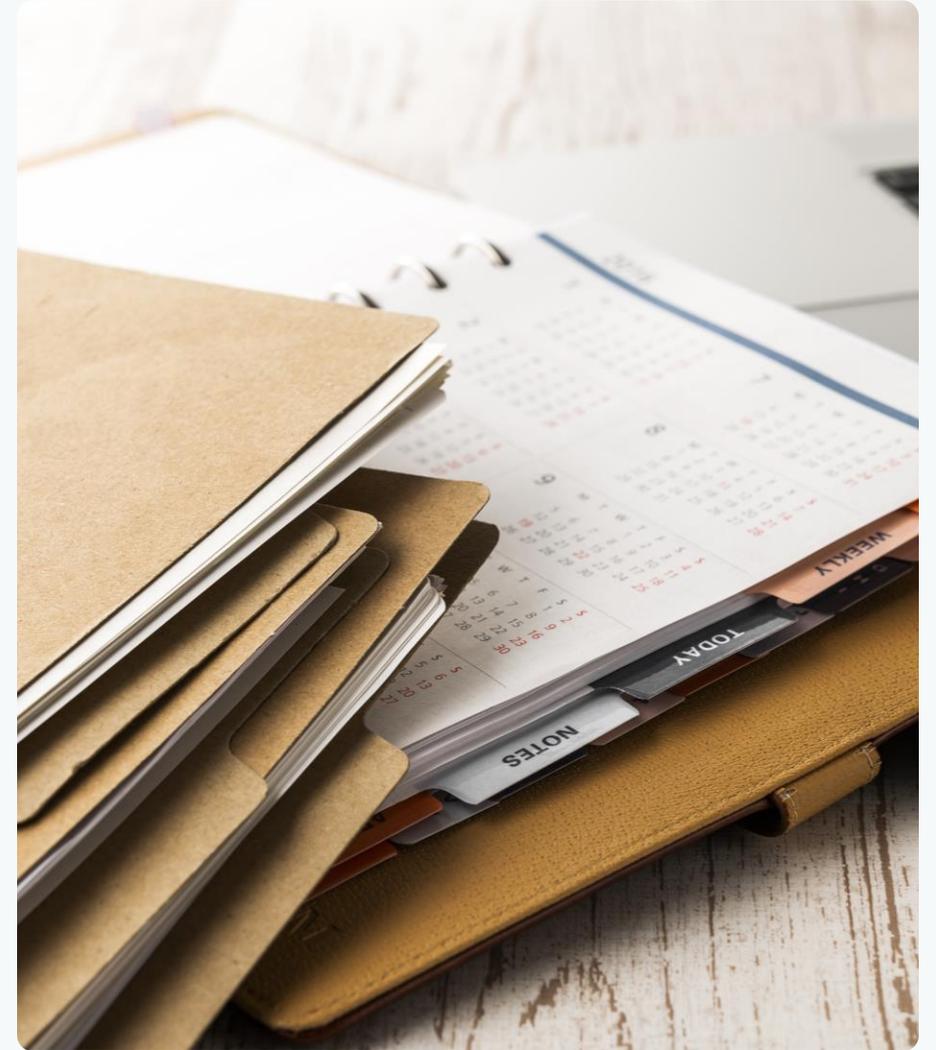

- Font Awesome 6 to be implemented

The 2023 Roadmap

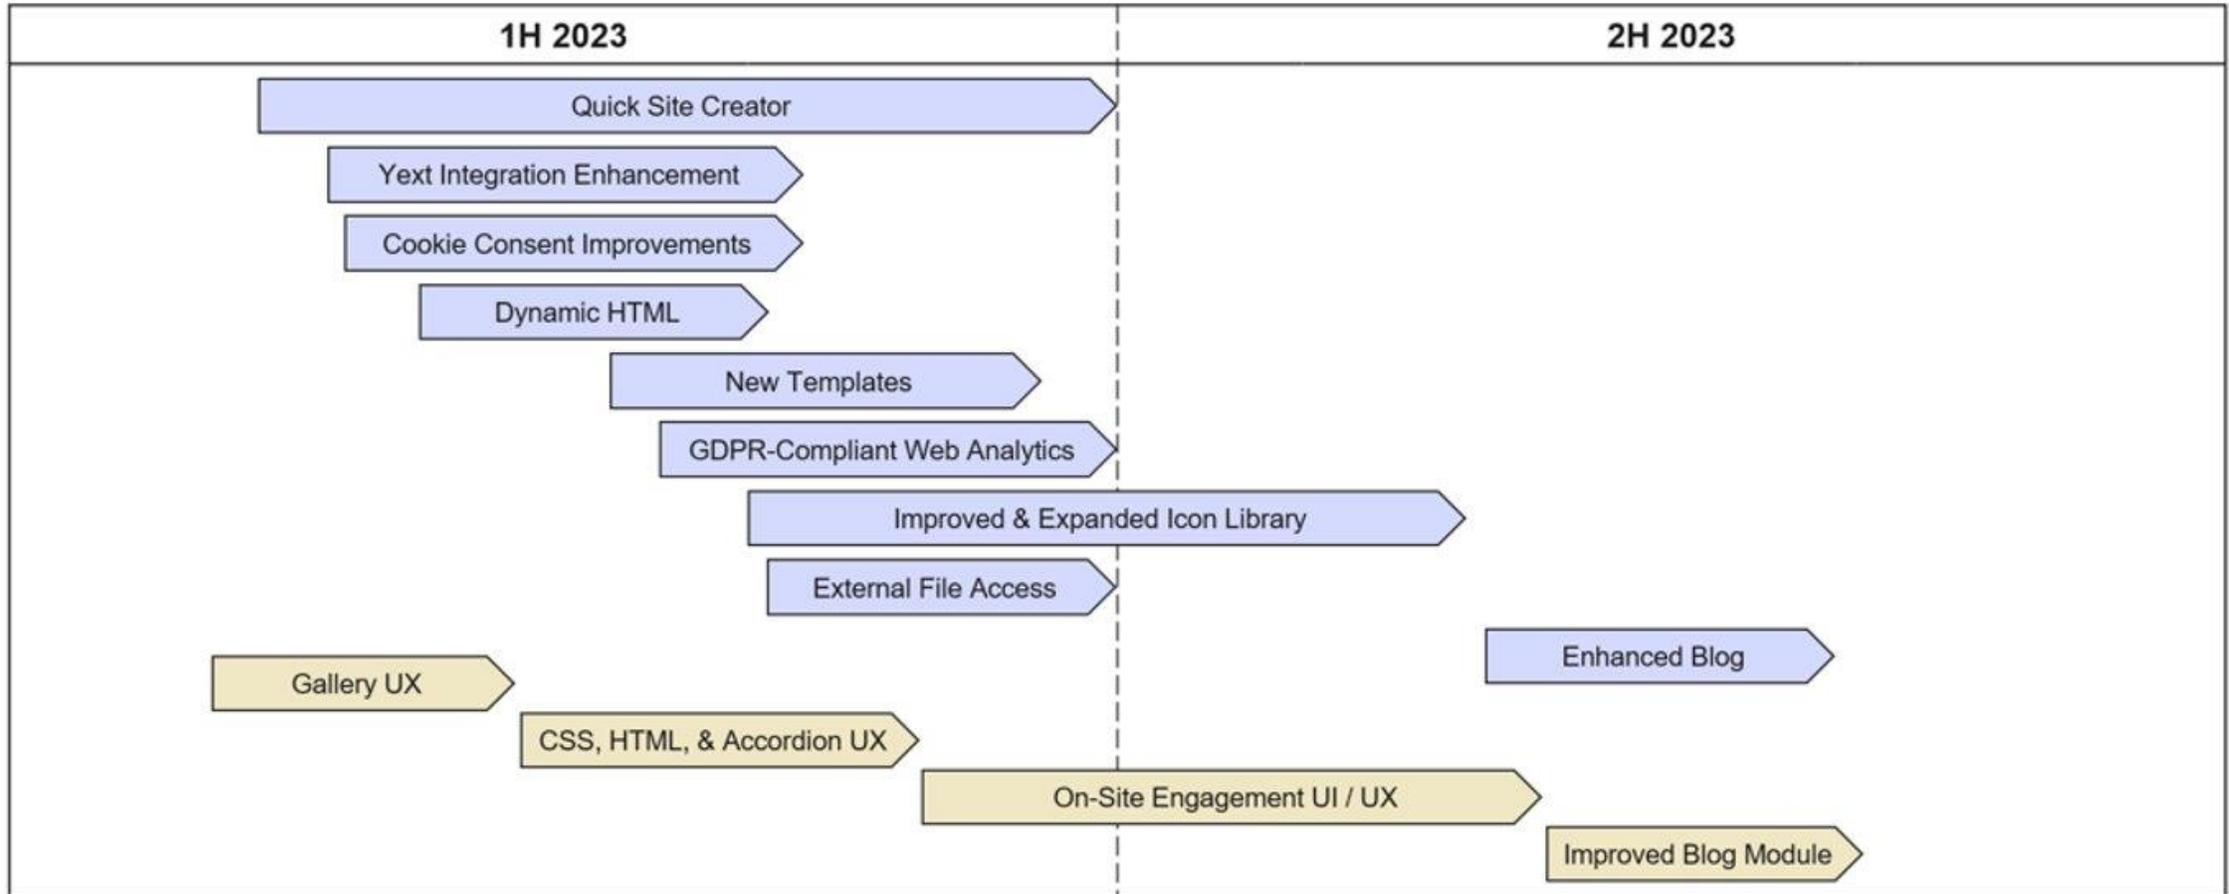

External File Manager

- External libraries can be included
- Requires API
- Will allow for tools like Google Drive and Dropbox etc to show up as images which you can select in file manager
